

HSBC Bank Australia Limited

HSBC Invest to HSBC WorldTrader Asset Transfer Form

Please complete this form to transfer your holdings to HSBC WorldTrader. HSBC WorldTrader uses a custodian model for all Australian and International securities. Interactive Brokers Australia (IBA) provides all execution and custody services and may arrange a sub-custodian (which may be an IBA affiliate), to hold financial products for HSBC WorldTrader customers.

If you are transferring more than one account, please complete one form for each account that you are transferring. Your HSBC Invest account registration (salutation, name and address) must match the registration details of your HSBC WorldTrader account that is receiving the securities. If the account or holding registration details do not match your HSBC WorldTrader account registration, the transfer will be rejected by either the sending or the receiving broker. You will need to contact your existing broker or share registry to update your registration details.

HSBC only accepts securities that are available for trading on the HSBC WorldTrader platform. HSBC will not accept transfer of any securities in restricted form. In the event that securities are received in restricted form, the securities will be returned to the sending broker.

Please fill out all the fields, print and provide your handwritten signature at the bottom of this form. Please scan and email the form to hsbcinvest@hsbc.com.au or mail to:
